

Western

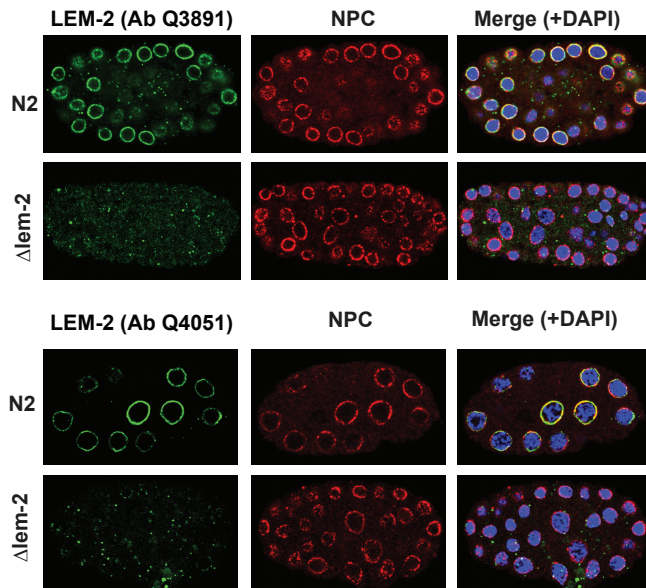

Western blotting condition

Samples:
N2 embryos (N2) or embryos from a *lem-2* null mutant (Δ *lem-2*, VC1317)

Antibody concentration:
1:5000 dilution

Immunofluorescence

Immunofluorescence condition

Samples:
N2 embryos (N2) or embryos from a *lem-2* null mutant (Δ *lem-2*, VC1317) fixed with 1% HCHO

Antibody concentration:
anti-LEM-2 antibodies: 1:1000 dilution
anti-NPC antibody (mAb414): 1:400 dilution
